PROFESSIONAL SUMMARY

Motivated Junior Frontend Web Developer with hands-on experience building personal web projects using HTML, CSS, JavaScript, and React. Familiar with Figma, Git, and GitHub, with a growing interest in creating responsive, interactive, and user-friendly web experiences. Also trained in Building Construction. Currently seeking a remote or international junior web development opportunity where I can contribute to real projects, learn from experienced developers, and continue developing my technical skills.

TECHNICAL SKILLS

- HTML
- CSS
- JavaScript
- React
- Figma
- Git
- GitHub
- Responsive Web Design
- UI/UX Design
- Frontend Development
- Building Construction

PERSONAL PROJECTS

Portfolio Website

Designed and developed a personal portfolio website to present my skills, projects, and professional profile.

Calculator

Built an interactive calculator using HTML, CSS, and JavaScript.

Product Card

Created a responsive product card interface with a focus on layout and user experience.

Login Page

Designed and developed a login interface using frontend technologies.

Shopping Cart

Created an interactive shopping cart project with product quantities and user interactions.

Advertising Website

Created website concepts and interfaces for advertising and promotional purposes.
